

FITZSIMMONS HOSPITAL SERVICES

Introducing the new **Chair-Air**

The Chair-Air has four individual bladders that alternate to provide the patient with a superior pressure redistribution seating surface, while the unique molded foam design with slight abductor pommel, stabilizes the hips and keeps the patient in proper mid-line alignment. The zippered non-skid stretch-knit cover is anti-microbial and fire-retardant. The Chair-Air includes the Battery Powered Chair-Air Pump and Cushion only.
