

# DREAMSTATION

## BiPap Auto

The New DreamStation BiPAP Auto SV with Heated Humidifier is designed to deliver optimal ventilation with minimal intervention. Specifically designed to be the best choice for managing complicated sleep-disordered breathing patients. It combines a number of technologies to recognize and react to changing pressure needs, and it's clinically proven to treat obstructive, central and complex apneas and hypopneas, as well as periodic breathing, such as Cheyne-Stokes respiration

### **UNIT FEATURES:**

- Auto-Adjusting Therapy
- Sleek Design with Colorful Display
- OPTIONAL Heated Humidifier
- Bi-Flex Pressure Relief
- Advanced Features & Data Tracking
