

TRILOGY 202

Using a new single limb circuit and proximal flow sensor, Trilogy 200 offers improved triggering and leak compensation that allows for the more sensitive delivery of therapy. This added sensitivity decreases work of breathing, resulting in greater comfort, better ventilation, and improved patient/ventilator synchrony for a wide range of adult and pediatric patients.

UNIT SPECIFICATIONS:

- Pressure and Volume Controlled
- 3 different circuit configurations
- Inline flow sensor for added sensitivity
- Dual Prescription Settings
- Light weight - 11 Pounds including batteries
- 6 Hour Battery Life, 3 Hour •Internal and 3 Hour Detachable
- Adjustable up to 50 FIO
- Two Circuit Options (Passive and Active)
- Low Flow O2 Bleed in
